# 前言： 中国企业对 气候变化的认知 和世界同步

王石 COP26 中国企业馆开幕演讲

从哥本哈根到格拉斯哥，每年我都会来气候大会现场，一转眼十年过去了，十年来，我们的地球，人类的处境，发生了巨大的变化，新冠疫情背景下，更充满不确定，但有些事情是确定的，在中国企业馆，我一定能见到老朋友。

解振华气候特使，还有戈尔前副总统，对二位再次莅临中国企业馆，我表示由衷的欢迎，老朋友的到来，也勾起我多年前的回忆。

2009年，我第一次参加气候大会，是在哥本哈根，印象最深的是，一下火车就看到大幅的海报，把各个国家领导人都画得很苍老，上面还以领导人的口吻写了一段话：“我很抱歉，我们本可以阻止灾难性的气候变化……但我们没有。”海报传递了悲观的情绪。

这次格拉斯哥气候大会，我没有看到类似的海报，如果有，我希望标语可以修改一下：“我觉得很骄傲，因为当时在格拉斯哥会议上我做出了正确决定，眼看地球没有变成糟糕的样子。”显然，我传递了乐观的情绪。我们要乐观吗？至少在这里，在中国企业馆，我们有乐观的理由。

2009年，我第一次参加气候大会的时候，“中国企业馆”不是现在的样子，而且当时中国民间，出国参加气候大会的人很少，印象中，加上我自己，只有三个人，算上我们背后代表的企业，只有100家左右，当时想发布一个中国企业的气候宣言，都不知道怎么组织，想做一场活动，也没有场地，只能在廊道装了两个气球装置，我们就

站在那儿，也没人理我们。但我们没有放弃，之后每年都来，也因为不放弃，才能见证每一年的变化。2013年华沙大会，开始有了“中国馆”和“中国企业日”，越来越多的中国企业组团参会，刚才说到的数字，也从100变成1000，2015年巴黎气候大会，1000又变成10000，2018年、2019年，中国面孔变得更多，这个数字又变成100万。2021年，新冠疫情背景下，参加中国企业馆这场边会，现场+线上参与的中国企业，涵盖碳减排领域几乎所有行业，建筑、能源、金融、工业、交通、互联网、零售、时尚、碳管理等等，接下来CCCA（中国企业气候行动）将要发布联合倡议，代表的企业将突破100万。从100到1000，从10000到100万，表面看只是一组数据，而数字的背后，是中国正在发生的变化，是观念的变化，就发生在人们的头脑中——中国企业家有同样的认知，即，如果今天不做出改变，这个星球将抛弃人类。我觉得，就算埃隆·马斯克真的能做到，把一部分人送上火星，绝大多数人还是只能待在这里，无处可逃。中国企业家，对气候变化的认知，和整个世界是同步的。

这些年，更重要的变革力量也来自国家政策调整，也就是中国的“3060”战略，这是中国的承诺、国家的责任和人民的担当，承诺、责任、担当，是三个普通的单词，但这对一个14亿人口的大国，一个高速发展的经济体，压力有多大？难度有多大？影响有多大？我们经常使用两个词来形容：“系统性”和“颠覆性”，“系统性”指的

是变革的范围，将覆盖所有人和所有企业，“颠覆性”指的是变革的强度。但不管哪个词，变革已经发生，我们别无选择，我记得一位中国官员讲过下面一段话：“在应对气候变化过程中，企业是主力军。政府制定了目标、法规、政策、标准，创造了外部环境，真正落实这些目标的主力军在产业界，在企业，在社会。企业家们是行动的主力。” 我们只能接受变革，还要在变革中找到机遇！在这里，我想与朋友们分享一段故事，也许会有启发。2002 年我开始登山，在那次登山之前，我翻阅海明威的一部小说，书中写了赤道附近有一座常年积雪的雪山，就是乞力马扎罗雪山，小说与山同名，叫《乞力马扎罗的雪》，我就是被小说吸引登上山顶，但让我诧异的是，我没有看见雪，只看到冰川，为什么？因为气候变化，乞力马扎罗已经变成了季节性雪山。我有一些失望，为什么会有这样的改变？回去一查资料吓了一跳，气候变化的重要原因，来自森林的消失，而消耗森林的大户，就是房地产行业，更可怕的是，我当年领导的企业，是中国第一大地产公司，也就是说，海明威的小说，乞力马扎罗的雪，雪消失，居然跟我和我的公司有关，这还不可怕吗？但我也看到了希望，如果我做出改变，可能会对气候变化，产生明显的正面作用。回去之后，我们开始接触气候变化领域的国际组织和国际企业，并决定改变和影响我们的供应链，而且发动行业内企业，采取一致行动，大家一起调整供应链，我们对合作伙伴说：如果没有权威机构的绿色认证，我们将不得不放弃你们的产品。联合的力量非常强大，到 2020 年，房地产企业中的绿

色供应链总销售额占全国房地产企业民用地产品销售额的比例，从 0 增加到 40%，在很多行业，“绿链”行动，正在成为越来越多中国企业的选择。总结下来，企业参与“3060”：一是有决心，二是有行动，三是加强国际合作，尤其是和国际组织和国际企业间的合作。

说心里话，我今年 70 岁了，说到“3060”，按现代医疗条件，2030，我应该能看到，2060 就不好说了。为什么这么多年，我们一直参与环保工作？一直坚定支持国家应对气候变化的战略，只要有机会，就发出一点微弱声音，尽一点绵薄力量？为什么？就是想尽我们这代人的责任。我还想告诉大家，前几年，我就给自己选好了墓地，我希望多年之后，如果有人路过我的墓地，不要对我指指点点，我就很开心了，如果他们勤奋一点，上网查一查，发现我们这代企业家，为子孙后代的生存环境，还是尽了点责任的，那我就瞑目九泉了。当然，在我进入墓地之前，我要说一点希望，这是中国人经常听到的一句话：希望寄托在年轻人身上。但这绝不是套话。一个月前，我在上海一所大学和同学交流，有个同学拦住我，跟我说，“王先生，我跟您一样。”我当时一愣，我说怎么样？他说，您喜欢读书、运动、做公益，我也读书、也运动也投入时间做公益，所以跟您一样啊。我说，你跟我不同，我们这代人，都是企业做到一定程度，才去想公益的事，而你这么年轻，就开始公益人生了，这一点，你比我强。所以，我说希望寄托在年轻人身上，这是一句实话。

## **PREFACE:**

# **Chinese Entrepreneurs Should Keep Pace with the Rest of the World on Climate Change Issues**

Welcome to China Corporate Pavilion! I am Wang Shi. From Copenhagen to Glasgow, I came to COP every year for the past 10 years. In those 10 years, our planet, our environment has gone through profound changes. COVID even added more uncertainties to our future. But something remains certain – we can always meet old friends in China Corporate Pavilion.

Mr. Xie Zhenhua and Mr. Gore, a sincere welcome to both of you for coming back to the China pavilion again. You brought me good memories from many years back.

In 2009, I attended the COP for the first time in Copenhagen. My biggest impression was the big posters at the train station that carried the portraits of national leaders. They looked 50 years older than they actually were. There was also a message on the poster that said: "I'm sorry. We could have stopped catastrophic climate change...We didn't..." The message carried a sense of pessimism. In Glasgow, I did not see such posters. If there is another poster, I think the message would be: "I am proud of saving the Earth because I made the right decision in Glasgow." Do we have reasons to be optimistic? Yes, particularly here in China Corporate Pavilion.

Changes of the Image of Chinese Entrepreneurs at COP In 2009, when we attended COP for the first time, China Corporate Pavilion was nothing like it is now. Outside of government delegation, few members of the Chinese public went abroad to attend the COP. My memory was that only three people including myself joined the COP, as representative of 100 companies. We were trying to make an

announcement at COP but did not know where to meet. So finally, we decorated the hallway with two balloons and stood there. No audience showed up. But we never gave up and came back every year after that. We were lucky enough to see the changes every year. In 2013, the COP in Warsaw had China Pavilion and China Corporate Day. Since then, more Chinese companies organized their delegations to COP. Increasing numbers of companies were represented at COP from 100-1000, from 1000-10000 in Paris. And then in 2019, the number rose up to 1 million. In 2021, despite the lasting impact of COVID, companies that participated on site or online in the China Corporate Pavilion will cover nearly every sector related to carbon reduction. construction, finance, energy, industry, transportation, internet, retail, fashion and carbon management. Soon, CCCA– China Corporate Climate Action will make a joint announcement on behalf of over 1 million companies. From 100-1000, from 10000 to one million. It is not just numbers. It is changes that take place in China. Changes in people's mindset. Chinese entrepreneurs shared the view that this planet will abandon the humanity if no changes happen today. I feel that even Elon Musk can really send some people to the Mars. The vast majority of us can only stay here with no other place to go. Chinese entrepreneurs have the same awareness on the climate change as the rest of the world.

In these years, the most powerful source of change comes from the national policy. The 3060 strategy of China is our national

commitment, and responsibility of the country and people. Responsibility is a simple word. But we can all try to imagine the pressure, challenges and impacts that it means for a 1.4 billion population and fast-growing economy. We often used two words: systemic and disruptive. Systemic is about the copes of changes. It will include everyone and every company. Disruptive is about the intensity of changes. Regardless, this change is unfolding in front of us. A Chinese official once said:

"Companies are the backbone of the combat against climate change. Government can make as many goals, laws, regulations, standards as it desires. But it is up to the industry, companies and the society to make those real. And entrepreneurs are bearing the heavy weight." We not only adapt to changes, but also find opportunities in them. Here I would like to share a story with my friends. I started to climb Kilimanjaro as a snow mountain in 2002. Before that time, I read Hemingway's novel "Snows of Kilimanjaro", which described a perennial snow mountain near the Equator in Africa. But when I reached the summit, I could not find a single piece of snow. Why? Because the climate change made snow only seasonal.

I was a bit disappointed. What caused this change? But when I did my research at home, it really scared me. One of the causes of the climate change is the loss of forests. And the biggest cause of the logging in the forest is the construction. The company I led Vanke was the biggest real estate company in China. That also means that Snows of Kilimanjaro disappeared partly because of my company. Was that scary? But I also saw hope of changes that we can make to get it right. When I was back, I started to meet with international organizations and companies to learn more from their practices. We decided to influence our supply chain to make changes together. We would buy timber materials that were

certified as fair traded. The collective actions were powerful. In 2020, the total sales of the green supply chain in real estate companies will account for the proportion of the national real estate companies' civil real estate sales from zero to 40%. In many sectors, the green supply chain campaign became the choice of more and more Chinese companies. In conclusion, Chinese companies are committed to 3060. They will take actions. They will work closely with international partners.

Hope of the Younger Generation I am 70 years old. I am expecting to see 2030 if I keep my gym workouts. It is hard to say for 2060. What are we working on environment all these years? Why are we making voice to campaign for the national strategy on climate change? Because we know the responsibility of our generation.

I also want to let you know that I chose my graveyard a few years ago. I hope that many years later, people will pass my grave and remember what we have done for the environment. That will make me very happy! But I want to say this. The hope comes with the future generation.

And it is not just a cliché. Recently, I made a speech at a university in Shanghai. I came across a young student at the break. He said, Mr. Wang Shi, we are alike. I was a bit surprised and asked him why. He said, you love reading, so do I. You love sports, so do I. You work for social cause, so do I.

I said. When I was young, I only thought about my business. I thought seeking social cause would only be luxury for successful businessmen. But now you and your generation start in university. You are better than me.

So it is true what I said "the hope comes with the future generations."

# COP26 中国企业馆

## COP26 CHINA CORPORATE PAVILION

C Team 联合万科公益基金会首次以中国民间机构的身份在联合国气候大会会场设立场馆，连续运营两周，使得中国企业馆首次亮相 COP 蓝区。在 COP26 期间，我们携手 17 家中国机构、22 家国际伙伴和 20 多家中外企业联合举办了 39 场边会，1 场 UNFCCC 直播边会和 1 天在 COP26 绿区进行的生物多样性展览。在此期间，发布 24 个企业气候行动案例和 COP26 线上参展企业气候行动视频。

C Team, in partnership with Vanke Foundation, established a pavilion at the UN Climate Change Conference venue, the first ever set up by China-based civil society organizations. The China Corporate Pavilion run for two weeks at the COP Blue Zone. Throughout COP26, we worked with 17 Chinese organisations, 22 international partners and more than 20 domestic and international businesses to co-host 39 side events, one UNFCCC livestream side event and a one-day biodiversity exhibition in the COP26 Green Zone. During the course of the events, 24 corporate climate action cases and online exhibitors' climate action videos were released.

# 1 场 UNFCCC 直播边会

## 1 UNFCCC LIVESTREAM SIDE EVENT

主办 COP26 蓝区 UN 边会《自下而上的社区碳中和创新路径》。边会嘉宾来自中国环境科学学会气候投融资专委会、阿拉善 SEE 生态协会、万科公益基金会、可持续社区研究所、国际竹藤组织和牛津大学等，活动在 UN 官网和 YouTube 直播。

We hosted in the COP26 Blue Zone the UN side event "Bottom-up Innovative Pathways to Net-Zero Community". The event was streamed live on the UN website and YouTube and featured guests from the Climate Investment and Finance Committee of the Chinese Society for Environmental Sciences, the Society of Entrepreneurs & Ecology (SEE), the Vanke Foundation, the Sustainable Communities Institute, the International Network for Bamboo and Rattan and the University of Oxford.

# COP26 绿区展览

## COP26 GREEN ZONE EXHIBITION

COP26 期间，C Team& 万科公益基金会作为中国唯一入选绿区的展览机构，在绿区的活动区域获得了一天的展示机会。与联合国管理的区域蓝区不同，绿区是面向大众的会场，公众可以预约参观。COP26 期间，绿区有 100 多家参展机构，数百场活动在此举行，我们此次展览的主题是“自然与生物多样性保护”。

At COP26, the C Team and Vanke Foundation partnership was honored to be allocated a one-day slot to showcase in the event area of the Green Zone as the sole exhibitor from China to be selected for the Green Zone. Unlike the UN-managed Blue Zone, the Green Zone is a venue open to the general public and can be accessed by appointment. Hundreds of events were held by over 100 exhibitors in the Green Zone, and our exhibition featured the theme "Nature and Biodiversity Conservation".

# 11月2日：中国企业日

## 2 NOVEMBER : CHINA ENTERPRISE DAY

在世界领导人峰会结束之际，中国企业馆正式开幕。习近平主席特别代表、中国气候变化事务特使解振华，中国代表团团长、生态环境部副部长赵英民莅临中国企业馆，与到场嘉宾和听众热切交流。美国气候现实项目创始人、前副总统戈尔和万科集团创始人、万科公益基金会理事长王石，全球商业气候联盟（We Mean Business Coalition）联席主席思琳·赫尔维贾博士、UNFCCC 组委会气候领袖组代表罗马里奥·费尔南德斯等重量级嘉宾到场并致辞，吸引了众多参会者和媒体记者来到中国企业馆。

The unveiling ceremony of the China Corporate Pavilion took place at the end of the World Leaders Summit. Xie Zhenhua, Special Representative of President Xi Jinping and China's Special Envoy for Climate Change Affairs, and Zhao Yingmin, Head of the Chinese Delegation and Vice Minister of the Ministry of Ecology and Environment, made an appearance at the China Corporate Pavilion and engaged with the guests and audience in attendance. Former Vice President Al Gore, founder of the US Climate Reality Project, and Wang Shi, founder of Vanke Group and Chairman of Vanke Foundation, Dr. Celine Herweijer, Co-Chair of the We Mean Business Coalition, and Romario Fernandez, representative of the Climate Champions Team of the UNFCCC, were among the dignitaries to attend and address the events, attracting a host of attendees and members of the press to visit the China Corporate Pavilion.

# 11月3日：金融日

## 3 NOVEMBER : FINANCE DAY

C Team 联合中国金融学会绿色金融专业委员会（绿金委）与北京绿色金融与可持续发展研究院（北京绿金院），在COP26中国企业馆主办了“金融支持气候行动-中国倡议与国际合作”研讨会。中国金融学会绿色金融专业委员会主任、北京绿色金融与可持续发展研究院院长马骏、中国银行董事长刘连舸、中金公司首席执行官黄朝晖、工商银行首席经济学家周月秋等在会上发言，研讨中国主要金融机构和“一带一路”绿色投资原则（GIP）等机构绿色发展战略、国际合作进展及成果，以及落实碳中和战略的新举措。

3 November: C Team, together with the Green Finance Committee of the China Society for Finance and Banking (GFC) and the Institute of Finance and Sustainability (IFS), hosted a seminar on "Financial Support for Climate Action-China Initiatives and International Cooperation" at the COP26 China Corporate Pavilion. Ma Jun, Director of the GFC and President of the IFS, Liu Liange, Chairman of Bank of China, Huang Zhaohui, Chief Executive Officer of CICC, and Zhou Yueqiu, Chief Economist of ICBC, spoke at the seminar. Discussions of the seminar focused on the green development strategies of major Chinese financial institutions and the Belt and Road Green Investment Principles (GIP), the progress and outcome of international cooperation, and new initiatives to implement carbon neutral strategies.

中国已经拥有全球最大的绿色信贷市场和全球第二大绿色债券市场。中国正在以碳中和为目标完善绿色金融体系，包括建立与碳中和目标一致的绿色金融标准、可持续相关信息的披露要求、支持低碳和转型活动的激励机制，以及更为丰富的绿色金融产品体系。

China now boasts of the world's largest green credit market and the second largest green bond market. China is enhancing our green finance system with a view towards carbon neutrality, the measures of which include establishing green financial standards in keeping with the net zero objective, disclosure requirements for sustainability-related information, incentives to support low-carbon and transition activities, as well as a more extensive green financial product mix.

**马骏 Ma Jun**

中国金融学会绿色金融专业委员会主任、  
北京绿色金融与可持续发展研究院院长  
Director of the GFC and President of the IFS

需要减少和逐步退出高碳投资，也需要进一步加大绿色投资力度。中国银行除已签约项目外，不再向中国境外的新建煤炭开采和新建煤电项目提供融资。

This calls for a reduction and phase-out of investments in high-carbon applications, and the further ramp-up of green investments. Going forward, Bank of China will not be providing financing for greenfield coal mining and thermal power facilities outside China, other than those under a previously signed contract.

## Liu Liange 刘连舸

中国银行董事长  
Chairman of Bank of China

中金公司将继续大力支持包括绿色债券和绿色股权在内的各种绿色融资工具，并可通过采纳“绿色金融共同标准”等方式，发行跨境绿色金融产品，以此实现绿色金融的国际合作“有的放矢”。

CICC will continue our strong support for a variety of green financing instruments, including green bonds and green equity. And we are in a position to issue cross-border green financial products under the "Common Criteria for Green Finance" and other means, to facilitate "purpose-oriented" international cooperation in green finance.

## 黄朝晖 Huang Zhaohui

中金公司首席执行官  
CEO of CICC

作为全球系统重要性商业银行，工商银行大力推动绿色金融发展，在治理架构、绿色贷款规模、绿色融资产品创新等方面，处于“领头雁”位置，绿色转型成效显著。

As a global commercial bank of systemic importance, ICBC has vigorously promoted the development of green finance, and is a leader in terms of governance structure, green lending scale and green financing product innovation, having yielded remarkable green transformation results.

## Zhou Yueqiu 周月秋

工商银行首席经济学家  
Chief Economist, ICBC

# 11月8日：适应日

## 8 NOVEMBER: ADAPTATION DAY

11月8日是COP26特设的“适应日”，中国环境资助者网络（CEGA）和C Team也于当天举办了“关注气候变化适应，促进人与自然和谐共生”论坛，并发布《CEGA气候变化适应资助策略研究报告》。

8 November: COP26's Adaptation Day, the China Environmental Grantmakers Alliance (CEGA) and C Team held a forum on "Focusing on Climate Change Adaptation, Promoting Harmonious Coexistence between Man and Nature" and released the "A Study on CEGA Funding Strategies to Climate Change Adaptation".

# 11月9日：中国企业日

## 9 NOVEMBER: CHINA ENTERPRISE DAY

11月9日是“中国企业日”，活动聚焦企业雄心与创新，并探讨了商业可持续和 ESG 等话题。生态环境部应对气候变化司副司长孙桢到场发言，京东集团、能链、魏桥德国、比亚迪等多家企业到会分享案例，中国企业气候行动（CCCA）也在此发布了“中国企业气候行动 2021 倡议”。

9 November: China Enterprise Day, the event centered on corporate ambition and innovation, with discussions on topics such as business sustainability and ESG. Sun Zhen, Deputy Director General of the Department of Climate Change of the Ministry of Ecology and Environment, addressed the event, followed by case sharing by a number of businesses, including JD Group, NewLink, Weiqiao Germany branch and BYD.

### CHINA CORPORATE CLIMATE ACTION COMMUNICATION VIDEO

# 中国企业气候行动倡议书

## CHINA CORPORATE CLIMATE ACTION PROPOSAL

气候变化的危机正在加剧，灾害性和极端性气候事件正以史无前例的规模向我们袭来，威胁着人类及地球生态系统的可持续发展。全人类必须团结起来积极面对挑战，努力实现《巴黎协定》的目标。现在，是实现这一目标，进而避免气候灾难系统性爆发的最后机会！

中国提出 2030 年前实现碳达峰、2060 年前实现碳中和的自主贡献目标。“双碳”目标为企业、社会组织、公众等各界力量的气候行动指明了方向。

我们认为工商企业应当将减碳目标纳入企业发展战略，积极采用绿色低碳的技术和可持续商业模式，提供气候友好的产品和服务。我们认为行业协会、商会、联合会、龙头企业和金融机构，应当在产业链、产业群的碳减排、绿色转型和绿色创新中发挥引领作用。

The climate crisis is intensifying. Catastrophic and extreme climate events are hitting us on an unprecedented scale, threatening the sustainable development of humans and the ecosystem. Humanity must unite to tackle the climate challenge and work towards the goal of the Paris Agreement. It is now our last chance to realize the goal and thus avoid a systemic outbreak of climate disaster.

China has committed to peaking carbon emissions before 2030 and to achieving carbon neutrality by 2060. These "dual carbon" targets will steer the way of the climate actions for Chinese enterprises, organizations, and the public.

We call on businesses to integrate carbon reduction targets into their development strategies, to adopt green and low-carbon technologies and sustainable business models, and to offer climate-friendly products and services. We call on business associations, chambers of commerce, federations, leading companies, and financial institutions to take the lead among industrial chains and business clusters in carbon reduction, green transformation, and green innovation.

为此，我们倡议以下行动策略：

Hereby, we propose the following actions:

- 01** 制定有雄心可落实的碳中和目标及实现策略；  
Set ambitious and achievable net zero targets and implementation plans;
- 02** 加强企业温室气体核算管理，支持行业开发完善碳管理标准和工具；  
Strengthen greenhouse gas accounting and management, and support the development of sectoral carbon management standards and tools;
- 03** 提升能效，采用节能、绿色、低碳的生产技术和管理方式；  
Optimize energy efficiency, and adopt energy-saving, green and low-carbon production technologies and management practices;
- 04** 扩大利用可再生能源，探索发展储能、负排放技术；  
Scale up the use of renewable energy; explore and develop energy storage and negative emission technologies;
- 05** 致力于提供健康、环保且气候友好的产品和服务；  
Commit to offering healthy, ecological and climate-friendly products and services;
- 06** 履行产品全生命周期的环境责任，减少各环节的资源浪费和污染物排放；  
Take environmental responsibility in the full product life cycle, and reduce resource waste and pollutant emissions in all processes;
- 07** 推动上下游商业伙伴共同减少排放，构建绿色供应链；  
Promote joint emission reduction actions with partners in the entire business stream to foster green supply chain;
- 08** 利用交易机制和碳汇产品抵消自身难以降低的碳排放；  
Use trading mechanisms and carbon sink products to offset unavoidable emissions;
- 09** 积极参与和支持绿色金融和气候投融资业务发展；  
Participate and support the development of green finance and climate finance;
- 10** 推动行业提升在环境、社会、治理（ESG）等方面的标准的实践。  
Promote ESG practices and sectoral ESG standards development.

让我们携起手来，投入到应对气候变化的行动中去，为尽早实现中国碳达峰、碳中和的目标而共同努力，同筑人与自然和谐共生的美好未来！

Let us join hands and devote to achieving China's carbon peaking and carbon neutrality targets, and to building a community of shared future for mankind and nature.

# 关于 C TEAM

## ABOUT C TEAM

### 缘起 INTRO

为提升企业和公众对气候危机的认知，推动中国企业家在应对气候变化中的行动力和国际影响力，王石等企业领袖和环保公益人士于 2014 年发起应对气候变化企业家联盟（C Team）。2017 年 5 月 8 日，大道应对气候变化促进中心在深圳正式注册成立，致力于支持中国企业家成为应对气候变化的行动引领者，推动绿色创新与变革，探索中国特色的绿色低碳发展模式，促进可持续发展和生态文明建设。

To raise awareness of the climate crisis among companies and the general public, and to promote the action and international visibility of Chinese entrepreneurs in addressing climate change, business leaders such as Wang Shi and environmentalists initiated the China Champions for Climate Action or C Team in 2014. On May 8th, 2017, C Team was formally registered in Shenzhen. It is committed to supporting Chinese entrepreneurs to be action leaders in addressing climate change, promoting green innovation and revolution, exploring a green and low-carbon development mode and promoting sustainable and eco-friendly development.

# 中国企业气候行动

## CHINA CORPORATE CLIMATE ACTION

CHINA CORPORATE CLIMATE ACTION

中国企业气候行动

中国企业气候行动是由行业协会、工商企业、社会组织自愿发起的非营利性合作网络，于 2018 年 9 月在全球气候行动峰会上启动。中国企业气候行动致力于通过行业组织的引领作用带动全产业链、产业群的碳减排、绿色转型和绿色创新，促进工商企业将应对气候变化纳入企业发展战略和企业社会责任，成为应对气候变化的企业典范，积极推广可持续发展的商业模式和气候问题的解决方案，带动市场、行业及政策走向。

China Corporate Climate Action (CCCA) is a cooperative non-profit network initiated by leading industry associations, businesses, NGOs, and research institutions in China at the Global Climate Action Summit in San Francisco in September 2018. CCCA aims at promoting carbon emission reduction, green transformation, and green innovation in the entire industry. We are dedicated to encouraging businesses to incorporate addressing climate change into their development strategies and corporate social responsibility, to be leaders in addressing climate change, to actively promote solutions to climate change, and to lead the trend of markets, industries and policies.

3月24日 24 Mar.

完成《房地产企业应对气候变化行动指南》开发。

在3月24日，与中城联盟、北京市企业家环保基金会联合举办地产行业“碳中和”主题研讨会，对《房地产企业应对气候变化行动指南》进行解读。

In March, the CCCA completed the development of the Climate Change Action Guide for Property Developers, and on 24 March, co-hosted a seminar on "Carbon Neutrality" for the property industry with CURA and the SEE Foundation, for a deep-dive into the Climate Change Action Guide for Property Developers.

5月13日 13 May

参加丹麦大使馆主办的“对话未来：北欧之声2021”活动。探讨商业增长如何与气候中和实现双赢，就“多方协力推动建筑领域应对气候风险”进行分享。

On 13 May, C Team representatives attended the "Future Talk: Nordic Voices 2021" event hosted by the Danish Embassy to discuss how business growth and climate neutrality could achieve a win-win situation, and to share their views on "multi-party synergy in addressing climate risks response in the construction sector".

## 5月27日 27 May

中国房地产业协会主办“房地产碳达峰高峰论坛”。C Team 作为论坛支持机构参与圆桌对话介绍《房地产企业应对气候变化行动指南》。

On 27 May, China Real Estate Association hosted the "Real Estate Carbon-Peaking Summit" and C Team participated in a roundtable dialogue as a supporting organisation to introduce the "Climate Change Action Guide for Property Developers".

## 8月25日 25 Aug.

举办全国低碳日主题活动，邀请行业专家和企业代表共同探讨物业管理碳中和潜力。

On 25 August, C Team held the National Low Carbon Day themed seminar, inviting industry experts and business representatives to discuss the potential of carbon neutrality in property management.

## 9月 Sep.

与 R.I.S.E 可持续时尚实验室启动“时尚行业可持续行动指南”项目，9月初形成指南框架。

The "Sustainable Action Guide for the Fashion Industry" program was launched with the R.I.S.E Fashion Lab, with a framework for the guide finalized in early September.

**9月22日** 22 Sep.

为积极推动国家碳中和愿景和全球控温目标实现，凤凰卫视、世界自然基金会 (WWF)，联合北京市企业家环保基金会 (SEE 基金会)、大道应对气候变化促进中心 (C Team)、公众环境研究中心 (IPE)、美国气候现实项目 (The Climate Reality Project) 多家机构，于 2021 年 9 月 22 日 -24 日共同主办 2021 零碳使命国际气候峰会，以“全球碳中和与中国担当”为主题。

To respond to the global carbon emissions reduction goal and China's vision of carbon neutrality, Phoenix TV and WWF China co-hosted 2021 Zero-Carbon Mission International Climate Summit with SEE Foundation, C Team, Institute of Public Environmental Affairs and the Climate Reality Project in Beijing from September 22nd to 24th, 2021.

**11月** Nov.

支持中国连锁经营协会发布《实体连锁企业互联网消费平台社会责任实施指南》。

In November, the "Guidance on Corporate Social Responsibility Management for Chain Stores & E-Commerce Platforms: 2021 Edition" was released by China Chain Store & Franchise Association with the support from C Team.
