

# **Enterprise Supply Chain Carbon Reduction Acceleration and Empowerment Meeting**

Time: 16:30-17:30, Tuesday, December 05, 2023

Location: COP28 Blue Zone C Team Solutions Pavilion

Format: Information sharing + open discussion (Hybrid)

Language: Chinese and English

## **Sponsor:**

C Team, Tencent, Beijing Catarc Automobile Technology Development Co., Ltd.

## **Intended Invited Participants:**

NIO, JinkoSolar, LONGi, Far East Horizon, HSBC, CWF, Climate Reality, Cornell University, Hong Kong University ESG Center, Vanke Foundation, SEE, Carbonstop, Guanghua Energy, EnergyLink Intelligent Electricity, Leverage, China New Energy Chamber of Commerce, Renewable Energy Subcommittee, Phoenix Satellite Television.

We will also openly invite:

Companies actively seeking efficient and innovative supply chain carbon reduction services.

Service organizations engaged in carbon services and anticipating support from major platforms.

Non-profit organizations committed to driving just transition.

## **Conference Theme:**

Facing the challenges and difficulties of global enterprise-level emissions reduction, the conference will feature insights from three perspectives: an analysis of trends in professional carbon reduction services, an incubation and acceleration platform for carbon reduction services based on the internet, and innovative solutions empowering

individuals. This will inspire in-depth discussions and exchanges among enterprises, service organizations, non-profit organizations, and research institutions present at the venue. Together, participants will explore how to leverage Internet innovation and technology to accelerate the enhancement of supply chain personnel capabilities. Additionally, they will discuss collaborative approaches to address enterprise-level emissions reduction in Scope 3.
